PYTHON DEVELOPER

PROFESSIONAL SUMMARY

Entry-level Python Developer with hands-on academic and personal project experience building backend applications, REST APIs, and database-driven web systems. Interested in writing maintainable code and developing reliable software.

TECHNICAL SKILLS

Python • Django • Flask • REST APIs • SQL • PostgreSQL • SQLite • Git • HTML • CSS • JavaScript • Unit Testing

EXPERIENCE

Software Development Intern (Sample) | ABC Tech Labs (fictional) | Jan 2026 – Mar 2026

• Built Django CRUD modules and REST endpoints for a sample inventory application.

• Designed relational tables and wrote SQL queries for reporting and data retrieval.

• Used Git branches and pull requests to manage changes with a three-person student team.

PROJECTS

Inventory Management API | Python, Django, SQLite, REST APIs

• Implemented product, stock, and reorder endpoints with validation.

• Added unit tests for core business rules and documented API usage.

EDUCATION

• Master of Computer Applications (MCA) — Sample University, 2024–2026

• Bachelor of Computer Applications (BCA) — Sample College, 2021–2024

CERTIFICATIONS

• Python Programming — Sample Online Course
